

Start Italian

We are a **beginners' group** who are looking to learn **Italian** from scratch. No prior knowledge of Italian is assumed. We aim to introduce ourselves to the language spoken in Italy by using a range of resources and self-help materials such as books, CDs, television, radio and the Internet.

The group will rely on **mutual support** as we all learn a new skill together.

We meet **every fortnight (first and third Thursday of the month)**, usually in someone's home, and our sessions are about **one and a half hours** long. The time between sessions can be used to put into practice the new skills we're learning.

This new group will be **starting in 2023** and will be an ideal springboard for anyone wanting to learn Italian from the very beginning.

The current U3A timetable slot for **Italian** is **Thursday mornings at 10am**.
